

# FACILITY IMPROVEMENTS

## Bathroom Renovations

One of Shelkter KC's core values is Dignity of the Individual. We seek to offer all our guests a clean, respectful, and safe environment as they seek shelter in our Mission.

In the past, large institutional showers were the norm in Rescue Missions. Today we recognize the negative impact those types of environments can have on individuals who have suffered trauma, served time in prison, or are struggling with mental health issues.

Our bathroom remodel will include individual shower spaces with attached changing areas as well as handicap showers and toilets. This will enable us to provide a safe, private area to address the most basic human needs.

**Project Budget: \$25,000**

**New Showers, Toilets, Sinks and Curtains**

The current dressing room pictured below will be replaced with individual shower rooms with changing rooms attached. The updates will also accommodate handicap needs and be wheelchair accessible.
