

RESPITE CENTER

Respite Program Beds

Our Respite Center will include 1 and 2 person bedrooms and community areas adjacent to bathroom and shower facilities. This space will allow men recovering from surgery or other medial care a place to rest and recover.

Two Person Respite

“Respite– a delay or cessation for a time, especially of anything distressing or trying”

Naming opportunities are available. If you are interested in sponsoring a portion of the Respite Center please contact Alisha Roberts at 816-421-7643 ext. 134 or aroberts@shelterkc.org

One Person Respite Room

Respite Care Services

Guests who are discharged from the hospital but are unable to return to a prior housing situation are often in need of a safe environment to temporarily rest and heal. The Shelter KC Respite area will provide up to six beds for guests needing short-term stays after a medical procedure.

Individuals will need to be self-sufficient and work with our emergency shelter staff for services. If they could benefit from our respite services, they will be offered a bed in the respite rooms as they gain physical stability in order to become eligible for our Shelter launch case plan or CCOR program.

Guests who are in need of additional medical attention or situations beyond our capabilities will be referred to a medical facility.

Our goal is to provide short term shelter for those recovering from medical procedures who are not in need of assistance but could benefit from supportive services during physical recovery.
