

SHELTER LAUNCH DORM

New Dorm for Overnight Guests Working Case Plans Out of Homelessness

New Modern Step-up Beds used in Dorms

Shelter Launch is a program for guests staying in our emergency overnight shelter. After their first two weeks of housing, guests are encouraged to join the Shelter Launch program.

The goal of Shelter Launch is for guests experiencing homelessness to create, commit to, and pursue goals that lead to a healthy, independent lifestyle.

Guests meet with a Life Coach and begin creating a case plan to address the situations contributing to their homelessness. Case plans are built to address individuals needs in the areas of housing, finances, legal issues, job searches, physical, mental and spiritual health.

Increased Bed Space

Currently, Shelter Launch participants stay in our overnight emergency dorm that houses up to 42 men. Our renovation plans include an expansion of bed space for this program converting our Library into a new Shelter Launch dorm. This renovation will provide an additional 14 beds for men working a plan out of homelessness.

The dorm will include our modern Step-Up Beds which offer clients increased privacy, storage space, reading lights and easier accessibility.

Current Library and Future Dorm

Existing Parking Lot Here

Sponsorship Opportunities

- The dorm will consist of 14 Step-Up Beds, Chairs, TV, Décor and Overhead Expenses
