# STEP-UP BEDS

---

## Sponsorship Program

\$2,500 Client Engagement Opportunity

Renovations through the Transformations campaign will enable Shelter KC to upgrade all existing shelter beds with the StepUp bed systems. The two-level system has a stairstep access to upper sleeping areas, greater privacy, personal storage space, reading lights, and USB ports for charging cell phones.

Shelter KC was the second shelter in the country to install these innovative bed systems. Made locally, these bed structures increase accessibility for clients and offer a dignified space as they seek support and work towards entry back into the community. Shelter KC will install these beds in the new Shelter Launch Dorm, the Respite and Renew Centers and the CCOR living areas during Phase 2.

Traditional metal bunks listed above compared to the new StepUp Bed systems shown to the right.

**Sponsorship opportunities for the Step-Up Beds are \$2,500. This covers the cost of one flat surface, mattress, pillow and bedding.**

Over the course of a year you may work with the Donor Relations team to send correspondence to individuals staying in your sponsored bed, attend special graduations, receive program updates and more.

If you would like to contribute to this program need please mark donations Step-up Bed Sponsorship. We have 54 bed sponsorships available.
